

IT254 – WEB TECHNOLOGIES AND APPLICATIONS

ASSIGNMENT 2

Name: **Sachin Prasanna**

Roll No.: **211IT058**

Question Statement:

Create an attractive web layout for product demos in the same web application that you

created last week, the conditions are as follows:

1. Include proper sectioning.
2. Audio, video, image with proper image captioning should be added
3. CSS styling should be provided (all three types)
4. Forms should be created(login, sign in, Demo details) , use all possible form input options(radio, checkbox, text area, text box, dropdown etc.).

Answer:

Since my first assignment was just a CV, it could not be extended to adding video styling, forms, etc. I have created a new website (Airplane Booking website) with the permission of the TAs.
